

New smoking fetish videos added at [Smoking Flicks](#)

We've added two new smoking fetish movies at [Smoking Flicks](#) – the smoking movie streaming and video download site.

The second half of the original Random Snaps 13, one of their most popular ever, again features all schoolgirl shoots. The highlight may be a schoolroom scene with Annie, Anna and Tash; but there are also great duos with Jasmine and Mieke, Ozlem and Kim B. and Annie and Seanan, plus lots of great solo shoots, all with the girls in uniform. The smoking, as usual, ranges from great snaps and frenches, to double drags, huge nose exhales and lots of smoke rings.

And from Pink Angel, Britney and two of her cute college friends, Maggie and Sarah, hang out in two duo scenes, and then smoke solo. There's lots of great talk about the girls' smoking history and preferences, along with enormous exhales, nice frenches and snaps as they smoke Newport 100s, Marlboro 100s and VS 120s. There is dialogue and natural sound.
