

New smoking fetish videos added at [Smoking Flicks](#)

We've added two brand-new smoking fetish movies at [Smoking Flicks](#) – the smoking movie streaming and video download site.

First, a new video from IRL Platinum features some great smoking in two duo scenes. However, due to a technical problem, there was no audio – so this title is being sold at a discount price. Ava and Jade are up first, with strong inhales, thick mouth and mouth/nose exhales and talking exhales; they're followed by Gia and Stellajay who show nice cone exhales and some smoke rings in their scene. All four models smoke corks, and there are some chain lightups scattered through the video.

Then in a second IRL Platinum video, Adarra and Stella relax on the bed, chatting about smoking and guys, with quite a bit of talk about their smoking histories. There are huge cone exhales, snaps, french inhales, smoke rings and more. Adarra smokes corks and Stella smokes all-whites. Coed Kady is next, smoking Marlboro Lights 100s with deep drags and nice thick exhales in a casual shoot. Finally, Olivia and Autumn smoke corks and talk about their smoking histories; there are great cone exhales along with Olivia's natural snaps.
