

New smoking fetish videos added at [Smoking Flicks](#)

We've added two smoking fetish movies at [Smoking Flicks](#) – the smoking movie streaming and video download site.

First, the latest new video from IRL Platinum features two lengthy group scenes. First, coeds Kady and Jenna sit on the couch and talk about everything imaginable relating to their smoking histories, as they smoke with strong straightforward style; then Kristen and Sandra are in black with a goth look, as they discuss their own smoking stories and smoke well.

Then Dolly is a cute 18-year old heavy smoker. In this compilation video, we watch her smoke in seven scenes; she smokes mostly Marlboros and Newports but also an all-white. There's also a multiples scene. Throughout, Dolly takes enormous drags on her cigarettes, followed by huge cone exhales as well as talking exhales and double drags. Some of the exhales are right-at-you. The final scene is a big closeup of Dolly's lips and mouth as she does an entire sequence of amazing open-mouth inhales. There's some dialogue about her smoking preferences.
